

David METGE

Helping Partners make the most of YouTube

8, Rue de Rome, Paris, FRANCE

T: (+33) 647-941-245 E: david@metge.me W: <http://david.metge.me>

Summary

Willing to come back to the Product side after three years at Google on the Sales Engineering side. My next career goal is to become Product Manager

Experience

Partner Technology Manager, YouTube France

2016 - Present

- Perform implementation reviews, advocate new product features, and ensure the prompt and proper resolution of technical challenges.
- Improve product feature offerings by providing partner feedback to internal cross-functional teams including Product Management (PM) and Engineering.
- Guarantee the technical aspects of partner integrations (both new and ongoing) by providing necessary documentation and technical guidance.
- Identify, drive, and optimize the business from existing and new opportunities by leveraging YouTube technologies

Customer Solutions Engineer, Google France

2013 - 2016

- Design and implementation of complex, cross-product customized client solutions
- Managing technical relationships with a select client portfolio
- Working with Sales to identify business opportunities leveraging both display and performance solutions supported by gTech
- Collecting requirements, providing guidance and best practices to apply ad products and technologies to achieve advertisers' business goals

Project Manager / Product Manager, ultranoir (French leading Web Agency)

2012 - 2013

- Web project management
- BlackOffice Product Management (CMS solution)
- Pre-sale and Sales experience (call for tenders, client-facing presentations)
- Social network management and consulting, Search engine optimization
- Backend development & data management for the World's Biggest Digital Model

Product Analyst Intern - Google Voice, Google France

2011

- Deployment and development of Google Voice outside the US
- Market study about the international mobile calls market
- Number portability & Emergency Services integration

Software Engineer, Amadeus (Transaction Processor for the Travel Industry)

2010

- Design and Implementation of an Android based application to rent a car
- Awarded at the Amadeus Great Intern Contest
